Paragraphs Corporation sells books and CDs using through online shopping. The customer adds items to her shopping cart. She may remove items or go to the check-out to make her purchases at any time. The customer reviews her purchases, chooses a payment method, and pays. A sales employee at Paragraphs Corporation gets the order and purchase confirmation from the system and sends the electronic order to the warehouse. The warehouse employee updates the order status. The customer may check the order status.

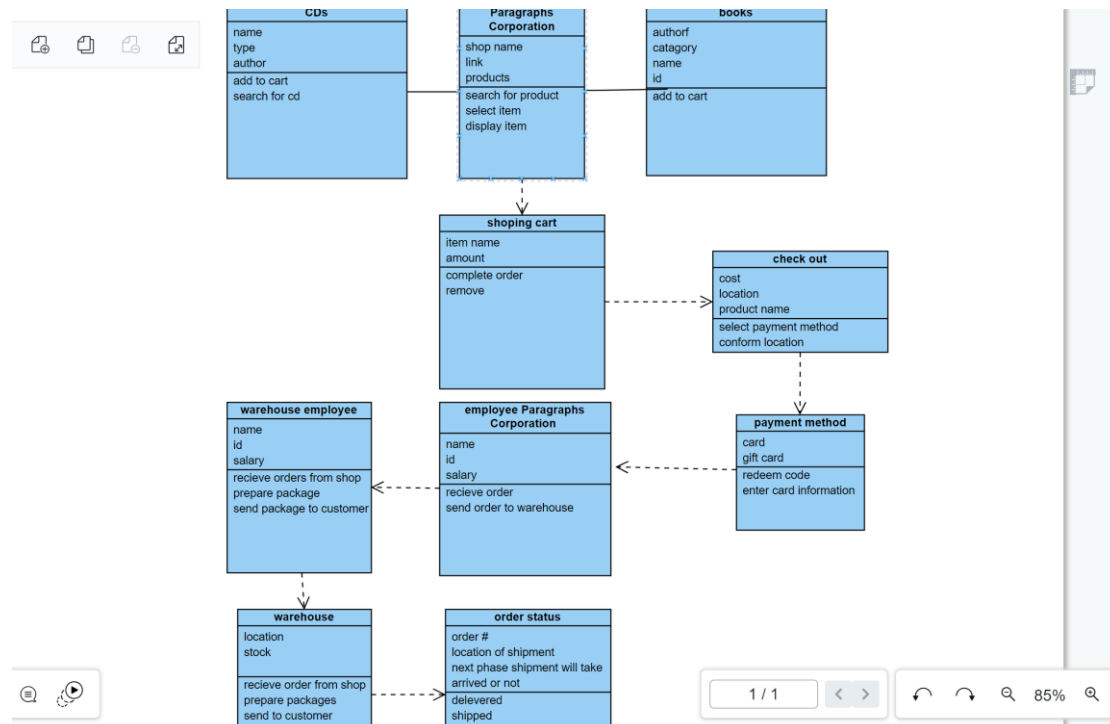

Write Class diagrams and activity diagrams for the above case study
